To begin, let me say that while this might be a bit of speculation on my part, the fact remains that this story has been almost purged from media coverage in an inordinate short amount of time. Should Kirk have really been assassinated, (killed off) the coverage (lack thereof) would not have virtually disappeared, but would have escalated dramatically. It is my assertion that it has been relegated to the dustbin of history, at least as considered by mainstream media and political mouthpieces, **due to the obvious coverup of the insane, nonsensical, and blatant lies concerning this Hollywood production and staged setup.** By the way, this type of propaganda and fakery could never have been accepted without the completely apathetic and braindead public audience's gullibility.

One thing that should be immediately clarified is that the entirety of the "Charlie Kirk affair" is that it was a massive psychological operation from beginning to end. Fake people, fake set, fake killer, fake events, fake reporting, fake memorial, fake everything, including a likely fake 'death.' (Undeath) The agenda is pervasive, in that all will lead back to one conclusion; that being that "Kirk was shot in the carotid artery, bled out, and was killed ('assassinated') because he "spoke out against Israel." Is this idiocy that of which you settled?

Once the stated narrative was questioned, and this was expected, of course, plan B was initiated. This led to the next layer of lies to confuse the already exploitable and naïve population of dupes. The subliminal overtones present in the second tier of deception, and the multi-directive and staged reporting of this event, are part and parcel, the epitome of mis-direction. Since it came from mainstream, both left and right, and alternative sources simultaneously, this just added to the mass mental uncertainty, What this tactic accomplishes is to splatter the psyche with a multitude of possibilities, of which virtually none are actually correct; but have the effect of creating a plethora of possible scenarios so that no one will be sure of anything. This certainly led the herd toward believing the State narrative that a martyr had died for his flock.

Let us now, after time has passed, and the dust has settled, look at the massive number of anomalies in this case. First, consider what did not happen, that should have (always) happened:

• No crime scene was secured, and in fact, it was immediately and purposely taken down and destroyed.

• All cameras captured, removed, and hidden.

• Within hours, that entire crime scene was cemented over with concrete.

• No police and no ambulances of any kind showed up after the alleged 'shooting.'

• No real blood was ever present, except the off-color sludge that instantly disappeared, leaving no blood at the scene, on Kirk's shirt, on the ground, or on any 'attempting' to 'treat' the alleged wound.

• Initially, only 14 frames of video was released, when there should have been hundreds of spectator's footage, and a large number of security cam footage available.

• While there was a 'fixed' camera moving with the so-called shooter on the roof, not one frame was released showing any rifle whatsoever.

• There was no required autopsy performed in Utah, (or anywhere else) a farce and felony.

• There is no death certificate available.

• There is no doctor's or medical report, no ballistic report, no forensic report, and apparently no exit wound.

• There has been no finding of any marriage certificate for Charlie and Erica Kirk, no birth certificates for their alleged children, and no facial pictures, and no names of these children has ever been mentioned.

This is just the beginning. The woman allegedly identified as Erika Kirk came right out of the woodwork, and was advanced quickly. Her mother worked for Intelligence in cyber security, Homeland Security, and the Department of Defense. Erika went from nothing, then contacted by the Trump Miss America/Miss Universe team, and was crowned Miss Arizona. While still very young, she, without any apparent resources, started an organization in Romania to 'help' orphaned children, and in an area well known for child trafficking. According to many reports, her contractual military orphanage organization, Romanian Angels, was accused by local residents of disappearing children. Erika was involved with and supported by the U.S. military in Romania. Also, from information presented, she met Charley Kirk during a job interview likely due to Trump involvement. Both Charley and Erika were multi-millionaires at a very young age it appears, and Erika just inherited the multi-hundred million dollar Turning Point USA conglomerate.

This so-called Charlie Kirk shooting was a close mirror of a movie called "Snake Eyes" made in 1998. The production spent two weeks on-location in Atlantic City, New Jersey, filming at the Trump Taj Mahal Hotel & Casino. The high level political character named ***Charles Kirkland*** was shot (assassinated) in the carotid artery on the left side of his neck (just like CK) due to help from a boxer named "***Tyler*** the Executioner. This also happened on the same date as the Charlie Kirk fiasco, September 10th.
The *blond* character, Carla Gugino, standing next to the assassinated politician in "Snake Eyes" is now starring in a movie called "Heads of State," where she plays the U.S. Vice President, named ***Elizabeth Kirk***?! An aside here: Erika Kirk is now called the most powerful woman in the U.S., and her Mega fans are begging her to run for vice president in 2028. You cannot make this shit up, but the bought and paid-for 'fact-checking' sites claim all of course are coincidences.

More Anomalies

Charlie Kirk's 'body' was thrown in an SUV and carried off scene. A private Jewish owned jet took off shortly thereafter from Provo airport, 15 minutes from the alleged murder scene, and turned off all tracking radar, before returning an hour later. This has not been explained. After this, his 'body' was flown by Air Force Two out of state to Phoenix with Vance, his wife, Erika Kirk, and others in tow. This is absolutely unprecedented.

The Charlie Kirk memorial was a huge operation, that would have taken many weeks to prepare. According to several sources, this venue was secured for this event 4 months in advance. Regardless, it would have been impossible to set up this lavish circus-like event in 9 days. It was most definitely planned far in advance of the alleged shooting. Lights, camera, action! Fireworks, laughing, many stage hours, heavy marketing ploys, comedy, fake tears and sympathy, high-level celebrities, political figures, billionaires, among many other personalities, along with 80,000 people. Trump and Erika hugging, making bizarre faces, hand signals and signs, and partying like it was 1984.

I could go on and on, as the weirdness, lies, and bullshit just gets deeper and deeper, but will save it for the next update of this now hidden and forgotten scam. There is so much more to add, especially that Charlie Kirk never died in my opinion, but was an actor in a grand politicly-plotted, false flag coup. No worries however, as for Charlie Kirk, according to Kash Patel, head of the FBI, as he said publicly: ***"Rest now, brother. We have the watch, and I'll see you in Valhalla" [Military Witness Protection]***
